**Key words:** errata, addenda – Hertzsprung–Russell and colour–magnitude diagrams – globular clusters: individual: Palomar 12 – Galaxy: halo – Galaxy: structure.

The paper ‘The STREGA survey – II. Globular cluster Palomar 12’ (Musella et al. 2018) was published in MNRAS, 483, 3062. In the originally published version of this manuscript, there is a typing error in the slope of the linear relation between  $R$  and  $(V + I)/2$  for the Landolt standards (Landolt 1992). The correct relation is:

$$R = 0.993(\pm 0.001) \times (V + I)/2 + 0.08(\pm 0.02)$$

as reported in the original fig. 2. Being this just a typo, the results of the article remain unchanged.
